ABOUT THE UNIVERSITY

The Himachal Pradesh National Law University, Shimla (HPNLU, Shimla), established in 2016 by the State Government (Act 16 of 2016), is among the premier law schools in India, offering integrated five-year undergraduate, post-graduate, and doctoral programmes. The University, situated in the Himalayas, is blessed with natural conditions best suited to seeking wisdom, imparting knowledge, and driving positive change. The University has witnessed tremendous growth through the plethora of initiatives taken for the development of its students.

Taking every possible step to achieve excellence in the field of legal education and research, HPNLU, Shimla is committed to ensure not only a quality education to the students, but dealing with contemporary socio-legal issues and having an impact.

ABOUT THE PROFESSIONAL TRAINING CELL

The Professional Training Cell, formerly known as the Centre for Human Resource Development, was established in 2021 under the aegis of Himachal Pradesh National Law University, Shimla. Its primary objective is to foster both personal and professional growth by instilling core values and promoting the development of human resources.

Recognising the pivotal role that human resources play in today's world, the Cell emphasises the importance of knowledge, skills, creativity, talent, and capability within the workforce. These elements are fundamental to the foundational development and overall progress of any organisation.

In light of the growing need to understand and harness the potential of human resources, HPNLU, Shimla established the Professional Training Cell as a dedicated platform for individuals and organisations to acquire the essential knowledge and skills required to meet their goals.

To fulfil its mission, the Professional Training Cell organises discussions, seminars, campaigns, conferences, and workshops on key and contemporary issues. This initiative underscores the University's commitment to nurturing talent and cultivating a culture of continuous learning and development.

ABOUT THE WORKSHOP

Research is fundamental to academic and professional growth.

It is the driving force behind knowledge creation and evidence-based decision-making.

The One-Week Workshop on Research Methodology with Hands-on Experience in SPSS and AMOS (SEM), organised by the Professional Training Cell at HPNLU, Shimla, is designed to build both foundational and advanced research skills for academic excellence and ethical scholarship. This interdisciplinary program offers comprehensive training across the stages of research, from problem identification, literature review, research design, data collection, to sampling techniques, and emerging research trends.

Participants, which include faculty, research scholars, and students, will gain practical experience in statistical analysis using SPSS and Structural Equation Modelling with AMOS. The training shall be reinforced through real-world case studies.

The workshop will focus on ethical research practices such as open access journal selection, publication ethics, and research metrics (impact factor, H-index, G-index).

Led by esteemed academicians and experts, the workshop will equip attendees with scholarly methodology, data literacy, and ethical awareness to ensure that they are able to conduct impactful, high-quality research.

WHO MAY ATTEND

This one-week workshop on Research Methodology with Hands-on Training in SPSS and AMOS (SEM) is designed for:

- Academicians and Professionals seeking to strengthen their research and analytical skills,
- Research Scholars aiming to enhance their data analysis proficiency,
- Faculty Members involved in research and teaching.
- Students interested in empirical research and structural equation modelling.
- Participants from all disciplines, with an interest in research methods and statistical analysis are welcome.

OBJECTIVES OF THE WORKSHOP

The One Week workshop on Research Methodology shall hold a curated sequence of sessions that will integrate theoretical frameworks with practical application. Each day is structured to progressively deepen participants' understanding of core and contemporary research practices.

The sessions will be conducted by distinguished academicians and experts, offering comprehensive coverage of the entire research process. Participants will gain insights into identifying research problems, conducting effective literature reviews, and designing robust research methodologies. The program will explore emerging online research trends and enhance data literacy. It will also provide hands-on training in SPSS and AMOS to strengthen practical research skills. Attendees will learn to apply advanced statistical techniques, including multivariate analysis and Structural Equation Modeling (SEM), and improve their ability to interpret and report research data accurately. Additionally, the sessions will guide participants in navigating academic publishing covering journal selection, indexing databases, and citation practices while bridging theory with practice through interactive exercises and real-world applications of statistical methods.

Designed to blend methodological depth with ethical orientation, the schedule ensures that by the end of the program, the participants are well-equipped to undertake and lead high-quality academic research in their respective disciplines.
