

# HIMACHAL PRADESH NATIONAL LAW UNIVERSITY, SHIMLA

### Semester: I

LL.M. (One Year Programme) Laws on Securities and Financial Market Paper Code: LM-110 Credit - 02

## Introduction:

Modern business requires huge capital. In the olden days, entrepreneurs use to fetch the same from their family, friends, or partners. Nowadays such capital is readily available from people at large, who freely invest with an expectation of high return. However, whenever investments are allured by misrepresentations, it not only causes loss to the investor but raises serious questions on the very legal framework in which the securities market operates. The poor regulatory framework contributes to securities-related disputes and litigations. The course titled 'Laws on Securities and Financial Market' is designed to provide a critical understanding of India's Capital Market with a focus on Securities Market. The course encompasses a range of issues related to the capital market including regulatory framework, investor protection and international capital market. The course to basics of the financial market such as the debt market and money market, and at the time deals with securities market intermediaries and the role of the Securities and Exchange Board of India in regulating the securities market.

### **Course Objectives:**

- 1. To make the students able to have a critical understanding of the fundamentals of the capital market.
- 2. To make the students able to critically examine the problems of the securities market.
- 3. To make the students able to understand the nuances of the securities market, instruments of the securities market and related procedural issues; and
- 4. To hone students' skills in securities market-related disputes/litigations through their exposure to case laws.

### Learning Outcomes:

On the successful completion of course, students will be able to:

- 1. Be skilled in the Capital/Securities market instruments;
